## DETAILED ACTION

### *Allowable Subject Matter*

1. Claims 1, 3-15, 17-28 are allowed.

The following is an examiner's statement of reasons for allowance: The allowability of the claims resides, at least in part, that the closest prior art of record Nguyen (**US 2002/0147518 A1**) does not disclose or suggest, alone or in combination the step of:

Regarding independent claim 1, **identification plan for said unprocessed parts, by which each unprocessed part is given unique and traceable unprocessed part identification data by assigning numbers to batches of parts and further assigning data related to positions within said batch of parts**, in combination with the other elements and features of the claimed invention.

With respect to independent claim 15, **identification plan for said unprocessed disks, by which each unprocessed part is given unique and traceable unprocessed part identification data by assigning numbers to batches of disks and further assigning data related to positions within said batch of disks**, in combination with the other elements and features of the claimed invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
